

Siberia

Sibiř je východní část asijské části Ruska: region severní Asie, táhnoucí se od Uralu na západě k Tichému oceánu na východě. Na severu tvoří hranici Severní ledový oceán a na jihu Kazachstán, Mongolsko a Čína. Sibiř představuje přibližně 66% území Ruska, s velmi nízkou hustotou obyvatelstva.

A landscape photograph of a mountain range. The foreground is filled with green foliage and a prominent, dark, leafless tree trunk on the right side. The middle ground shows rolling hills and valleys covered in dense evergreen forests, partially shrouded in mist. The background features more distant, hazy mountain peaks under a sky with soft, horizontal cloud layers. A warm, golden light from the low sun creates a glow in the valleys and highlights the edges of the clouds.

A landscape photograph of a calm lake at dusk or dawn. The sky is a deep, clear blue. In the background, dark, silhouetted mountains rise against the horizon. A bright, circular light source, likely the sun or moon, is positioned just above the horizon line, creating a brilliant, shimmering reflection that spreads across the water's surface. The foreground shows a dark, sloping bank of the lake. A diagonal watermark is overlaid on the image.
